

Information for Health Care Providers

About Creekside Natural Therapeutics

Creekside Natural Therapeutics is a natural products company that specializes in clinically driven, naturally made solutions. Dr. Natalie Lambajian-Drummond is a respected, board certified pediatrician at the company who formulates and oversees our natural products. She specializes in natural and Integrative Medicine. Dr. Natalie was named one of the best pediatricians in the U.S. by Parents Magazine.

All of our products are naturally driven by clinical research supporting our formulations. Our products are all made in the U.S.A. at a laboratory that follows GMP procedures. Each batch is tested to ensure safety, ingredient levels and freedom from contaminants/heavy metals. Our products are free of common allergens such as gluten, wheat, nuts, dairy, soy, corn, yeast, fish, and egg.

About Creekside Natural Therapeutics Sleep Aid for Children

A gentle blend of 0.5mg Melatonin and 2mg Chamomile used for sleep. Free of most known allergens including gluten, wheat, nuts, dairy, soy, corn, yeast, fish and egg. Each batch is tested for safety and active ingredient strength. The combination and strength of ingredients helps children to sleep naturally and stay asleep. For more information including studies, see our site <https://creeksidenaturals.com/healthcare-providers/>.
